## Young Cardiologist Meet

### Tentative Agenda

**Day 1 – 16<sup>th</sup> November 2019**

Particulars	Time
Arrival of Honourable Judges, Delegates	11.00 am to 1.00 pm
Lunch time	1.00 pm to 2.00 pm
Registration	3.30 pm to 4.00 pm
Welcome & Introduction	4.00 pm to 4.10 pm
Introduction to Young Cardiologist Meet	4.10 pm to 4.20 pm
Introduction of Judges	4.20 pm to 4.45 pm
Break out session	4.45 pm to 5.00 pm
<b>Presentation by Delegates</b>	<b>5.00 pm to 7.30 pm</b>
Use of strain and tissue velocity imaging for early detection of cardiac dysfunction in patients with Hb-E/ $\beta$ -Thalassemia	Dr. Anirban Das
Association of Manual Thrombectomy with Stroke - A Retrospective Analysis	Dr. Rahul Shewale
Study of the profile and natural history of ventricular septal rupture complicating acute myocardial infarction	Dr. Chirag Parikh
A study of Left Atrial deformation properties by strain imaging in Mitral Stenosis patients and its correlation with Left Atrial Appendageal thrombosis	Dr. Aditya Verma
Prevalence of congenital coronary artery anomalies in adults patients undergoing coronary angiogram-a retrospective study	Dr. Amardeep Bishnoi
A study of superior vena cava, hepatic venous pulse wave doppler in ostium- secundum atrial septal defect patients-before and after device closure	Dr. Amitabh Poonia
Comparison of clinical & angiographic profile of takayasu arteritis between paediatric & adult patients	Dr. Amith
Echocardiographic Study of Left Atrium and its prognostic importance in Patients of Dilated Cardiomyopathy	Dr. Anindya Sarkar

# CME FOUNDATION OF INDIA

1st Floor, Plot No. B-6, Cross Road B, MIDC, Marol, Andheri (East), Mumbai – 400093.  
T: +91 22 62869292 | website:www.cmefi.in

Validation of "left ventricular early inflow-outflow index": A novel echocardiographic method for quantification of mitral regurgitation in an Indian population with special focus on rheumatic etiology	Dr. Anirudh Pawar
Study of change in brain natriuretic peptide levels in patients undergoing percutaneous balloon mitral valvotomy	Dr. Ankesh Kumar
A cross sectional prospective study of transradial versus transfemoral approach for percutaneous coronary intervention in acute myocardial infarction	Dr. Ankur Jhaver
Statin reload prior to off-pump CABG: Effect on biomarker release	Dr. Atul Kaushik
Study on clinical and echocardiographic assessment of right ventricular function in patients with mitral valve disease in Medical College Kolkata	Dr. Basabendra Choudhary
Assessment of left ventricle diastolic function after transcatheter closure of atrial septal defect in different age groups	Dr. Bhushan Patil
Pilot study for establishing nationwide network of registries on management of acute coronary event (STEMI) (MACE registries)	Dr. Chandra Das
The assessment of right ventricular function in inferior wall myocardial infarction by 2d echocardiogram with color doppler and its angiographic correlation to proximal right coronary artery disease	Dr. Chandra Sudheer Reddy
Coronary artery perforation during percutaneous coronary interventions: incidence, predictors, management and outcomes	Dr. Chetana
Assessment of B-type natriuretic peptide and 6-minute walk test as Predictors of Rehospitalization in patients with Heart Failure with reduced ejection fraction	Dr. Deepak Verma
Effect of intravenous ferric-carboxy maltose on oxygen kinetics and functional status in chronic heart failure patients with iron deficiency: a randomized, control study	Dr. Dhoot Radheysham
A study of clinical, angiographic and treatment outcomes in patients with chronic total occlusion in coronary arteries in a tertiary care hospital	Dr. Dhruv Jadeja
Clinical and aetiological profile of pericardial effusion and their outcome at one year in a tertiary center	Dr. Divya Mukund

# CME FOUNDATION OF INDIA

1st Floor, Plot No. B-6, Cross Road B, MIDC, Marol, Andheri (East), Mumbai – 400093.  
T: +91 22 62869292 | website:www.cmeffi.in

Protean manifestations of various cardiomyopathy	Dr. Giridhar Muthu
One year clinical outcomes of bioresorbable scaffolds in long stenotic lesions and small diameter coronary vessels: a prospective study	Dr. Gunjan Garg
To evaluate the results of balloon pulmonary angioplasty in patients with chronic distal pulmonary thromboembolic disease and pulmonary hypertension	Dr. Hanumantha Reddy
Prognostic value of estimated plasma volume in heart failure complicating myocardial infarction	Dr. Hari Kiran
Serum chloride levels in acute decompensated heart failure and its correlation with 30 day outcomes	Dr. Himanshu Gupta
Correlation of coronary artery calcium score with pooled cohort ASCVD risk score among Indian patients for statin therapy as primary prevention: an analytical observational study in a tertiary care hospital	Dr. Ipsita Mukherjee
Assessment of right ventricular function in patients with acute myocardial infarction-an observational study	Dr. Irfan Hakim
Clinical and histopathological profile of cardiac tumors in adults in a tertiary centre	Dr. Jagadeesh
To study the prevalence of cardiac channelopathies in children aged 5-18 years undergoing treatment for epilepsy	Dr. Jaskaran
The Role of Fluoroscopically Detected Coronary Calcium in Predicting the Presence of Significant Coronary Lesions	Dr. Jostol Pinto

## Day 2 – 17<sup>th</sup> November 2019

Particulars	Time
<b>Top 10 predictions in Cardiology-10 years from now</b> <b>Dr. (Prof.) Steven R Bailey, SCAI</b>	09.00 am to 09.30 am
Presentation by Delegates	09.30 am to 12.30 pm
<b>Lunch</b>	<b>12.30 pm to 01.30 pm</b>
Address by SCAI faculty	01.30 pm to 01.40 pm
Address by Chief guest(s)	01.40 pm to 02.00 pm
Address by Guest	02.00 pm to 02.10 pm
Recognition of research work by Chief guest, SCAI Faculty	02.10 pm to 03.10 pm
Vote of Thanks	03.10 pm to 03.20 pm
