# CHEST CONNECT

**Venue:** The Deltin, Daman

**Date:** 27<sup>th</sup> July, 2024

**Link:** <https://chestconnect.cmefi.co.in/register>

## Conclave Overview

The Expert Conclave organized by us is designed to shed light on the management of allergic rhinitis and fever in children from a clinician's perspective, exploring various treatment modalities, diagnostic strategies, and therapeutic agents. It aims to delve into the evidence-based rationale for managing these conditions in children. This conclave will provide a platform for knowledge exchange, interdisciplinary collaboration, and innovation in pediatric medicine. Participating doctors will engage in panel discussions centered on real-world approaches to managing pediatric allergic rhinitis and fever, sharing practical insights and fostering in-depth discussions among medical professionals.

## Conclave Objectives

The primary objective of this conclave is to bring together specialists, doctors, and professionals in pediatric medicine to engage in discussions, share their expertise, and propose key opinions on various topics related to the management of allergic rhinitis and fever in children. The conclave aims to delve into real-world experiences, insights, and challenges faced by pediatric clinicians, physicians, and healthcare professionals in managing young patients with these conditions.

## Conclave Outcomes

- Delve into practical insights and evidence-based strategies for effectively managing challenging cases of allergic rhinitis and fever in children.
- Foster collaborative discussions on innovative patient care methodologies grounded in real-world evidence and experiences in the management of allergic rhinitis and fever in pediatric patients.
- Gain valuable expertise and perspectives shared by key opinion leaders in pediatric respiratory and internal medicine.
- Explore innovative therapeutic approaches for allergic rhinitis and fever in children based on real-world evidence and clinical success.
- Improve patient care outcomes by incorporating real-world insights and experiences into clinical practice for pediatric patients.
