Dear Doctor,

In the field of cardiology Coronary intervention and imaging plays a crucial role and addressing various challenges. Cardiologists like you must have faced many difficult situations and complex cases.

Being a cardiologist, you always look forward to engage yourself in the latest advancements, techniques, and best practices in the cardiology universe.

Skillhance is designed especially for you to extend a comprehensive learning experience, featuring presentations, workshops, interactive sessions, and opportunities to participate in complex cases with **profound and eminent cardiologist Dr. Sarita Rao & Dr. K. Roshan Rao, Senior Interventional Cardiologist, Apollo Hospitals, Indore.**

During the program, esteemed experts in the field of cardiology will deliver insightful lectures, facilitate live case training sessions and hands-on simulator based training on latest developments in coronary intervention.

Dr. Sarita Rao & Dr. K. Roshan Rao have carefully curated the agenda to address current challenges, emerging trends, and practical solutions that will positively impact patient care and clinical outcomes. **This program will be held at Apollo Hospitals, Indore at their state-of-the-art facility cath lab on 20-21 January 2024.**

We sincerely believe that your presence and active participation will contribute to the purpose of the Skillhance program & fostering an environment of shared learning.

We look forward to welcoming you and sharing this enriching experience with you.

Warm Regards,

Dr. Sunil Pandey

Director - CME Affairs
