Summary of Cross Connect:

- The CME was conducted at Gurugram, Haryana. It was aimed to bring together the well-known Nephrologist, Neurologist and General Physician across India in order to discuss various clinical aspects, differential diagnosis of Pharmaco-invasive Therapy in STEMI, Hypertension and stroke risk and Management of hypertension.
- In this CME, Different topics related to Pharmaco-invasive Therapy in STEMI, Hypertension and stroke risk and its management with different case studies, Surgery perspective and Add on combination protocol when monotherapy fails in the management etc and their complications were discussed in this event.
- Different cases were explained to the audience and the whole case was open for discussion. Audience actively participated in the discussion regarding Resistant Hypertension and Chronic Kidney and its management. It was a very interactive session and the delegates thoroughly enjoyed it.
- Participants were keen to share their experience and knowledge and they also provided their critiques and recommendations on the event.

CROSS CONNECT 2017

12-13-14 MAY '17

FEEDBACK

- Topics covered were relevant and informative
- There was sufficient opportunity for interactive participation
- Information provided will be useful for my clinical practice
- Faculty shared information clearly
- Format of delivery of information [lecture, Case Studies] was relevant
- The event added to my conceptual understanding on the subject
- The initiative addressed my education need(s)
- Asian Society's educational initiative are in right earnest and value adding
